International

Our international division was born from demand to adjust our domestic programmes for non-UK audiences. Since initially responding to demand, our international offering has rapidly expanded, delivering skills programmes globally as well as hosting delegations in the UK for knowledge visits. Our international training division continues to go from strength to strength, delivering training events [worldwide](#) [1] as well as accommodating delegations visiting [the UK](#) [2]. We currently deliver the [Foreign and Commonwealth Office's flagship EU training programme](#) [3] for its staff based in the UK and UK missions overseas.

Our international division offers a wide range of popular learning programmes as well as designing bespoke workshops. Dods Training works with organisations to design and deliver bespoke learning and development interventions which are tailored to precise and specific individual and organisational needs. We know that one size doesn't fit all and so our programmes are tailored specifically to your objectives and development needs. Our programmes, utilising existing frameworks and networks, are designed to provide you with suggested topic areas by which training needs might be identified and objectives achieved.

We can design courses lasting from one day to several weeks for staff at every level of an organisation on a broad range of subjects. These programmes can take place in London, Brussels, Washington, or any other desired international city location depending on your preferences.

Our programmes have helped countries improve their [communications](#) [5], strengthen policy making and hone [parliamentary scrutiny](#) [6]. We do this by drawing on our experience as a prime supplier of training to the UK Government and longstanding relationships with Parliament and Government in the UK. We use these as our benchmark for best practice and to enhance experience for delegations we host.

To find out more about what we do and how we can help you click [here](#) [7] or take a look at our [case studies section](#) [8].
